

OGC HAS REVIEWED.

28 November 1956

MEMORANDUM FOR: Mr. Houston

SUBJECT : Possible Additional Emergency Relocation
Sites for CIA

1. I met with [REDACTED], CIA Emergency Planning Officer, on 27 November 1956 to discuss OGC review of draft executive orders that might be issued in a national emergency. Incidentally in the course of that meeting [REDACTED] provided the following information. 25X1A9a

2. He stated that there was currently some re-thinking in process as to the adequacy of the size of the CIA emergency relocation center. The plan has been to expand facilities there to provide for the housing of personnel in excess of the hard core by the erection of tents or quonset huts. Apparently it is now felt in some quarters that facilities in addition to those of the present relocation center will be required in augmentation of the latter. [REDACTED] stated that he had been to ODM this week to look over maps of other possible sites with them. He commented that he and [REDACTED] Special Planning Assistant for ID/S planned to make a field survey of some possible sites where facilities, less elaborate than those at our existing Center, might be provided. 25X1A9a 25X1A
